

# CS 346: Daily Standup

Team: 101

Date: April 3, 2023

## Questions

Enter comments below. If a team member is absent, fill in their name, and put a line through the answer section

Name	What have you completed since the last meeting?	What are you going to complete today?	What obstacles are in your way
Charles Shen	<ul style="list-style-type: none"><li>● Implement the delete note feature in the context menu</li></ul>	<ul style="list-style-type: none"><li>● Add documentations and demo videos for features</li><li>● Fully test the app to check any bugs</li></ul>	The runners are currently down for our project. (Mon, April 3)
Benjamin Du	<ul style="list-style-type: none"><li>● Added documentation + demo videos for features</li></ul>	<ul style="list-style-type: none"><li>● Add hotkey for lightweight toggle</li></ul>	none
Andy Yang	<ul style="list-style-type: none"><li>● Moved the web service to the Google Cloud platform</li></ul>	<ul style="list-style-type: none"><li>● Update console app to open the latest version of the application</li><li>● Add tests for web service</li></ul>	Google Cloud platform only supports Java 11, however, we use Java 17 for application

Yuying Li	<ul style="list-style-type: none"> <li>● Fixed bug for lock and unlock notes</li> <li>● Added LICENSE.txt to the project</li> <li>● Wrote part of the feature instructions and recorded demo videos for the features I implemented</li> <li>● Implemented the functionality to allow the user to move the notes inside groups back to the “Notes” section</li> </ul>	<ul style="list-style-type: none"> <li>● Finish writing instructions and recording demo videos for the features I implemented</li> <li>● Prepare Sprint 4 release notes and client installers</li> <li>● Might need to work on containerizing the web service using Docker if the Google cloud platform does not work well</li> </ul>	None
-----------	--	---	------

## Outstanding

Do we need help with anything?

Nothing

## Decisions

Are there anything else we should capture from this meeting?

The following features are now supported:

1. Directly delete a note from the file list view
2. Move the notes inside groups back to the “Notes” section

For the web service, if the Google Cloud platform does not work well with the application (since the Google Cloud platform uses Java 11 and the application uses Java 17, there might be weird issues), we will move to use Docker
